Re: The Dayton Power and Light Company's Request for Additional Time To Respond To The
Information Request For The South Dayton Dump

Dear Ms. Sheppard-Johnson:

The Dayton Power and Light Company ("DP&L") hereby requests additional time to provide information in response to the United States Environmental Protection Agency's ("U.S. EPA") General Notice of Potential Liability and Information Request for the South Dayton Dump ("Request") that was dated July 18, 2002. The Request seeks extensive information dating back over sixty years. DP&L is in the process of investigating its records and gathering documents in response to the Request. DP&L's internal investigation is time intensive and must, unfortunately, be routinely interrupted to satisfy other obligations in other matters. DP&L needs additional time to help ensure the accuracy and thoroughness of its response. Based upon my calculations, DP&L's response is due August 21, 2002. DP&L requests an additional thirty days in which to complete its investigation and provide a response. Accordingly, DP&L requests until September 20, 2002 to submit information in response to the Request.

As noted in previous correspondence, please direct all correspondence or notices in this matter to my attention. Thank you for your anticipated cooperation in this request. Please contact me if I can be of further assistance.

Very truly,

Athan A. Vinolus
Associate Counsel
